About This Game

The Moment of Silence is a classic point-and-click 3rd person adventure game set in New York City in 2044. Players step into the role of Peter Wright, an advertising executive currently heading up the Government's 'Freedom of Speech' campaign. When a heavily armed SWAT team storms his neighbor's apartment, Peter must uncover the truth behind his mysterious disappearance as he becomes drawn into the deceptive worlds of corruption and power. Fascinating, well researched visions of the near future 75 locations, designed by award-winning CG artists and more than 500 interactive screens 30 minutes of full screen video Lip synchronization using phonetic voice analysis Motion captured animation.

The Moment of Silence marries fully-rendered, animated backdrops with a traditional and intuitive adventure interface. The game mixes real-world locations with fictitious environments to create immersive and incredibly varied worlds.

The Moment of Silence offers more than eight hours of professional voice talent for heart-pounding drama that sounds as good as it looks. Traditional adventure puzzles are fused with dialogue choices and moments of high drama, putting the game on par with some of cinema's greatest thrillers, where action sequences are integrated to create a constantly challenging adventure.

Cool locomotive btw where are the Direct Rail Services, Chiltern Railways and TPE (Transpennine Express) Liveries? I want them liveries plz. Hello Friends! This dlc adds new powers. They are quite funny. For example, when you stomp, the enemies around you fly up into the air and blow up like fireworks. The powers themselves are actually quite good for what they are. They make even getting some of the achievements easier.

Recommended for adding new powers to the game.. this game is so tuff!!!!!! even a r7 260x graphics card doesnt stand a chance for its supreme power. Its so difficult the hardest part is desciding was spending 69 cents on a sale a good idea.. Very nice route! Kinda gives you that Florida "feel". The route has beautiful scenery, Lots of High Speed areas, etc.... only a few flaws as in....

CSX Dash 8-40CW

- Starts in Dynamic braking
- Lights are a little too yellow
- Same old problems like the other DLC's

Amtrak P42DC

- Same engine, horn, bell sounds from the Empire Builder
- Viewliner Stairs doesn't drop down.

Mods can make it better but besides that, great route! Tons of workshop scenarios for it. I recommend it.. Arelite Core. My review!

Story: Traditional RPG with terrifyingly powerful supervillain who wants to bring about utter destruction of the world. You play a blacksmith who has made up his mind to journey across the world seeking out all other Master Blacksmiths to learn from - you want to become the greatest Blacksmith who ever lived. Oh, and it just so happens the most powerful sword in history is needed to kill the supervillain and guess what Blacksmiths do? CREATE SWORDS! Along the way cities are razed, friends die, levels are gained, and fun is had.

Music: Fantastic. 8V10

Combat: Simplistic yet fun. You use a point system to make certain Moves of your choosing more powerful/more effective. These points can be subtracted or added anywhere on the map - no Inn or anything needed. Your healer can Parry and heal your entire party for some HP. There's a "Stun" system which the more you hit the enemy the better your meter until you fill it and the enemy is stunned for a turn or two.

Gameplay, Mechanics, Funness, Overall Enjoyability: I mean it's an Indie SNES-era RPG released in 2017. It's done very well. I noticed some typos which I wasn't fond of, but there were only a few. I think the game is worth \$19.99.

Overall: 7V10

I bought this game on Steam after recalling it from many years ago, so it was, to some extent, bought to appease my nostalgia. I remembered correctly that the game could be difficult at times.

However, if you have a walkthrough at hand to give you a hand (should you find yourself having overlooked some miniscule detail), the game should be fairly easy to traverse and take about seven hours to complete. However, I think that while \$10USD could usually be considered a reasonable price for 7 hours of entertainment, in the case of a game that is 14 years old, I think \$5USD seems a more justifiable figure, so it's best you buy this on sale.

Besides those points, the game itself is excellent. The story is very compelling (based on a novel, in fact), and if you are someone who likes to consider the details and likes some intellectual stimulus, this game has a lot of it. The characters all have.. character, with some quality voice acting (except for that one kid who is voiced by an adult..). The game has some beautiful music - though not enough of it, and you'll hear the same pieces many times. The set pieces are quite good for their time and still adequate today, however you'll find some glitching of character placement onscreen if playing on a widescreen monitor, as the game wasn't made with playing on one in mind. Also bear in mind that while this story technically has a happy ending in that everything is resolved and the evil ones are given justice, there is some gruesome backstory and there are many innocent and not-so-innocent people who get killed. It's an intellectually stimulating story; but despite that, murder remains murder, and this won't be something to help you sleep at night. There are several extremely ugly sides of human nature shown in this game.

Overall, I recommend this game, but bear in mind that it can be difficult (have a walkthrough handy), visually slightly glitchy on widescreen, and actually very sad.

EDIT: Having read some other reviews, I would like to clarify some points.

Firstly, since I had some prior experience of the game (though never having completed it), my playtime may be less than expected. Maybe 10-15 hours is a more realistic figure. The quoted 25 hours on the story page is difficult to believe, unless you really take your time.

Secondly, the puzzles in this game are logical and sufficient clues are (almost) always about somewhere. I would still recommend a walkthrough, as some details are easily overlooked (a footprint here or there, in particular, though the quizzes tended to have a question or two that I might get wrong, too), and sometimes spending too much time trying to figure out a puzzle is just a waste of time. Does having to sometimes rely on a walkthrough this mean the game was badly designed to begin with? Perhaps. Does it mean it isn't worth playing? Not really. You should still be able to complete 95% of the game by yourself.

Thirdly, I found the UI perfectly usable, though I agree that movement is awfully clunky.. Final DLC not included in the Season Pass BS fixed review now positive.. It's like that time you accidentally bought a jrpg and realized some people have vastly different ideas about what constitutes a game.. Eh, you don't get to spawn with it you have to craft it and get all the materials so it's not really worth it until your able to spawn with it. So far it's been running well and is pretty smooth. I like the concept and it makes word matching more fun. I wish there was a way to have a list of all the times we got a word wrong or right or to generate a list after playing but I'm sure more features are on the way. I need to explore more of the options to customize lists, personally. I think the background artworks are very nice, and there's potential in the story idea. However, I felt that the actual story is too short, with abrupt transitions between scenes. Elaboration of the plot points, as well as addition of more "intermediary" scenes will probably help here. The language also felt too flowery at times.

In addition, the endings felt jarring because it's suddenly implied that Kira has killed many people prior to her encounter with the protagonist.

Overall, I think the VN is still OK, and hopefully the team's future works will be better.. it doesn't include the last dlc **WHAT IS THE POINT OF A SEASON PASS IF IT'S NOT ALL DLC?????!!?!?!?!.** [NOTE: This review needs to be updated. Will update it soon.]

Originally, I decided I wasn't going to buy this game because people said it heavily resembled a mobile game (Microtransaction City). However, because I love the franchise so much, I decided to ignore the negative reviews and buy the game anyways. Hell, I even bought the KP DLC. So that's 100 dollars down the drain.

Scores-

Story: 6.5/10 - The story-line definitely has its flaws. It appears lazily written and confusing in many ways but I was somehow
